Catalogue of live animal and meat importers in Middle East and North African countries

July 2018

Introduction

The Intergovernmental Authority on Development (IGAD) region is rich in livestock resources with an estimated 360 million ruminants. In 2017, the region exported some 10 million heads of live animals and 41,000 MT of meat to Middle East and North Africa (MENA) which represents about 50% and 10% of annual demand in MENA respectively. This live animals and meat importers' catalogue, compiled from three major importing countries (Kingdom of Saudi Arabia; United Arab Emirates and Egypt), is meant to help new exporters or existing exporters of live animals and meat to establish contacts and linkages. It is expected such contacts will enable new comers to start while those already in the trade will have an opportunity to expand markets with minimal hassle and cost in relatively shorter period.

The compilation of the list has been made possible with the support of trade counselors of IGAD member states namely Ethiopia, Kenya and Sudan stationed in MENA countries who were trained by IGAD /ICPALD over the last two years.

IGAD /ICPALD is grateful to the Italian Development Cooperation who financed the livestock and meat project implemented by IGAD /ICPALD and FAO that supported this initiative.

Dr. Solomon Munyua
Director,
IGAD Center For Pastoral Areas And Livestock Development
(ICPALD)
